

SO FLY

wakes up at five
then a two hour drive
jumping out the bus outside of school
little tired but still looking cool
little man's got stars in his eyes
not so good with the books but he tries
but the bell rings, the beat drops
he's the king of the world, won't stop

like moonwalk
damn he can move
took the whole room made the whole thing groove say give me some years and I swear that I will buy this whole crowd champagne all on my bill

he
he's so fly
he's so fly
he
he's so fly
he's so fly

girl's got some issues lately
mama's new man shady
big sister just got a baby
and ever since she's been drinking daily
mama say you won't go far
but she's dreaming of being a star
but the bell rings, the beat drops
she's dancing her way up to the top

and then through it all I went
all of my moves on earth heaven sent
give me some years and I swear that I will buy this whole crowd champagne all on my bill

she
she's so fly
she's so fly
she
she's so fly
she's so fly

moonwalk
damn he can move
took the whole room made the whole thing groove
moonwalk
damn he can move
took the whole room made the whole thing groove
moonwalk
damn he can move
took the whole room made the whole thing groove
moonwalk
damn he can move
took the whole room made the whole thing groove

like moonwalk
damn he can move
took the whole room made the whole thing groove say give me some years and I swear that I will buy this whole crowd champagne all on my bill

they

they're so fly
they're so fly
they
they're so fly
they're so fly
