

## BRAIN

did not use to but now you go  
straight to the bone and to the core  
straight to the brains  
and to the window when it rains

did not use to but now you go  
straight to the bone and to the core  
straight to the brains  
and to the window when it rains

and if you dont want me no more  
you go straight to the core  
when you dont want me no more  
you go straight to the core

if you dont want me no more  
you go straight to the core  
when you dont want me no more  
you go

looks like you're everywhere I go  
seems like my brain is blue and sore  
straight to the brains  
and to the window when it rains

looks like you're everywhere I go  
seems like my brain is blue and sore  
straight to the brains  
and to the window when it rains

and if you dont want me no more  
you go straight to the core  
when you dont want me no more  
you go straight to the core

if you dont want me no more  
you go straight to the core  
when you dont want me no more  
you go

did not use to but now you go  
straight to the bone and to the core  
straight to the brains and to the window when it rains  
did not use to but now you go  
straight to the bone and to the core  
straight to the brains  
and to the window
