

SAMURAI

meet me upon that hill
peaceful starry night
I've seen this coming all along
but i dont want to fight

I did seppuku all summer through
and its time to clean it up
its blood this blood this blood tells the story of
how I can't get myself to stop

so pull your sword and Ill pull mine too
you behead me when the summer is through
pull your sword and Ill pull mine too
you behead be when the summer is through

you can try to be nice but you know you must go all in
and you can try to be gentle too but you know a head must be rolling
and so you meet me upon that hill and I look you in the eye
in peace and quiet I bow down samurais dont cry and now Im ready to die

so pull your sword and Ill pull mine too
you behead me when the summer is through
pull your sword and Ill pull mine too
you behead be when the summer is through

I walk to school through this park every day and now, shit, you behead me here
walk to school through this park every day and now, shit, you behead me here
