

GLU

old ways they might fade  
but they're sticky like glue  
young girls' ways  
no you dont know you don't you  
all these old men cannot tell me what to do

thinking all night cause the doubt is sticky too  
yes Ive got a thousand references sir, just like you  
all these old men cannot tell me what to do

more than enough self consciousness for two  
talk from the right ,from the left, the mind, the crew will always stay with me stay with me will always stay with me

old ways they might fade  
but they're sticky like glue  
young girls' ways  
no you dont know you don't you  
all these old men cannot tell me what to do

I have been listening and watching from my room  
cook and stir yes I keep it in the womb  
a young girl, I gave birth, and now I watch it bloom

more than enough self consciousness for two  
talk from the right, from the left, the mind, the crew will always stay with me stay with me will always stay with me
